Attachment 1

Change Order No. 001 AMENDED SCOPE OF WORK

Contractor will provide the following additional consulting services to assist PG&E with its cybersecurity organizational strategy:

1. Scope of Work

Working collaboratively with the PG&E Sr. Director of Cybersecurity and other PG&E executive designates (the "Leadership"), Contractor will continue to provide recommendations related to the effectiveness of PG&E's cybersecurity organizational strategy, as PG&E refreshes its cybersecurity organization's vision, mission and objectives, program charter, service plans and catalog. Contractor will assist Leadership by recommending processes to track and monitor PG&E's progress in making changes to its organizational strategy. Specifically, Contractor will:

Phase 1

- Provide PG&E's extended cybersecurity leadership team an understanding of the cybersecurity organizational recommendations that the Leadership decides to pursue for its feedback and discuss the results with Leadership.
- Leveraging the feedback from Leadership and the extended cybersecurity leadership team, assist PG&E in drafting the cybersecurity organizational strategy, including the vision and mission, objectives, operating practices, governance model, and guidance for the cybersecurity team and stakeholders.
- Meet with Leadership to identify organizational performance goals for FY20, and provide recommendations as Leadership establishes its goals and objectives.
- Meet with Leadership and the extended cybersecurity leadership team as designated by Leadership to identify near-term changes that are consistent with the strategy, and document a dashboard for tracking commitments from the extended leadership team.
- Provide recommendations and share generic examples/templates to assist the extended cybersecurity leadership team while it designs processes and procedures for its near-term changes.

Phase 2

- Facilitate the development of cybersecurity service plans through meetings with PG&E's cybersecurity service owners (the "service owners") as designated by Leadership. Contractor will provide recommendations to the service owners, based on Contractor's

knowledge of industry leading practices, as the Service Owners create their service plans aligned to PG&E's cybersecurity organizational strategy. Service plans include service goals, technology and resource plans, measurements, process improvements, investment needs, and identifies key risks/issues/gaps.

- Provide recommendations and share generic example templates to assist Leadership to develop a cybersecurity organizational change dashboard for progress reporting.
- Meet periodically with the Service Owners to discuss service plans, identify issues/roadblocks, identify cross-service opportunities that are consistent with the cybersecurity organizational strategy, and provide advice and feedback from other workstreams.

Ongoing

- Facilitate discussions with Leadership, extended cybersecurity leadership team, Information Technology and PG&E Business Units to identify opportunities, roadblocks and make additional recommendations, as organizational change activities are implemented by PG&E.
- Assist Leadership in preparation of briefing materials for executive leadership, Board of Directors or other internal stakeholders, at Leadership request, on key organizational recommendations and PG&E initiatives to implement recommendations.
- Obtain and incorporate feedback from Leadership on Deliverable format and draft Deliverable content.
- Report status of ongoing activities to Leadership on a weekly basis.

2. Deliverables by Contractor

All Deliverables will be branded as PG&E's (and not Contractor) and will include:

- Monthly status report on PG&E's cybersecurity organizational change initiative including meetings conducted, summary of key recommendations, management actions, and where applicable, status of PG&E changes associated with the initiative.
- Cybersecurity organizational strategy document with security vision and mission, objectives.
- Cybersecurity organization guide document with organizational security operating practices and governance model.
- Cybersecurity service plan design (template).
- Recommendations for cybersecurity service plans (which will be developed by PG&E Management).
- Cybersecurity organizational strategy dashboard.
- Summary roadmap with PG&E's initiatives associated with the cybersecurity organizational changes.

We may prepare some Deliverables in conjunction with you that will be intended to be treated solely as PG&E's own, and will not be represented as having been prepared by Contractor.

3. Anticipated Timeframe

The timeline for delivery of services under this SOW is four (4) months from January 13, 2020 to May 12, 2020.

4. Project Staffing

Contractor resources assigned to this SOW are as follows:

Name	Role	Title/Title Equivalent

Malika Argawal	Cybersecurity Analyst	Consultant

*This individual will be staffed on premise at PG&E's site Monday through Thursday for the duration of the engagement, and will work a reasonable work week subject to Contractor's vacation and holiday policies.

5. Project Assumptions and Dependencies

The Services and delivery schedule for this project are based upon the assumptions, representations or information supplied by PG&E set forth below ("Assumptions"). In the event these assumptions materially change during the project, there may be an impact to the scope, schedule or duration of the Services that Contractor will request through a change order or amendment. Any change order, additional work, expense or cost shall not be authorized without the prior written approval of PG&E and Contractor. Contractor and PG&E understand that PG&E will be responsible for providing the following:

- Facilitator to streamline internal PG&E needs relating to project execution (i.e. access to data sources, LAN ID approval, PG&E computer access, etc.);
- Provide a working environment for up to three (3) Contractor personnel for use during onsite work. This includes, but is not limited to, building and facility access, office space, email access, and network connectivity to the PG&E network subject to PG&E security provisions.

6. Contractor Responsibilities

Contractor will perform the Services in accordance with the Standards for Consulting Services established by the American Institute of Certified Public Accountants. Accordingly, it will not provide an audit or attest opinion or other form of assurance, and will not verify or audit any information provided to it.

7. PG&E Responsibilities

PG&E is responsible for all management functions and decisions relating to acceptance of the Services, including evaluating and accepting the adequacy of the scope of the Services in addressing PG&E's needs. Specifically, PG&E is responsible for its Cybersecurity Organizational Strategy, Cybersecurity Services, including its scope and related initiatives. Contractor will assist management by providing advice in the form of recommendations based on Contractor's understanding of leading practices and will support through project management only.

PG&E is also responsible for the results achieved from using the Services or Deliverables. PG&E will designate a competent member of its management to oversee the Services. It is PG&E's responsibility to establish and maintain its internal controls. PG&E will provide accurate and complete information and reasonable assistance, and the Contractor will perform the engagement on that basis.

8. Fees and Resourcing

Contractor's professional fee for the additional scope of work described above will not exceed \$869,366. We will also bill you for our reasonable out-of-pocket expenses, any applicable sales, use or value added tax, and our internal per ticket charges for booking travel, not to exceed 13% of professional fees. Total fees plus expense will not exceed \$982,383.

Fees for services will be invoiced on a monthly fixed fee basis in accordance with the following schedule:

Month	Fee
